EXPERIENCE (PSYCHOLOGY)

8/94 to Present	Private Practice Ogden, UT
--------------------	-------------------------------

Private practice focuses on evaluation and treatment of childhood disorders; theoretical orientation is behavioral and cognitive behavioral; treatment approaches emphasize parent-child interaction. Post-doctoral studies, training, and practice has focused on work with court-involved families, e.g., child custody evaluations, treating expert services, and mediation.

8/88 to Present	Ogden City Schools Ogden, UT
--------------------	---------------------------------

Duties include evaluation of students referred for social, emotional, and behavioral disorders, developmental delays, pervasive developmental disorders, and learning disabilities; provision of consultation services to parents and teachers; and supervision of psychology interns.

Duties also included development of departmental evaluation policies and procedures, including policies and procedures for evaluation of ethnic and language minority students; and staff development. First seven years designed, implemented, and evaluated district's counseling program for elementary at-risk students and provided clinical supervision for district counselors and social workers.

1/87 to The Children's Center
8/88 Salt Lake City, UT

Internship: Conducted psychological evaluations of preschool children referred for emotional and behavioral disorders; provided individual child therapy and parent therapy and training.
